Maintenance-free timing chains in our range of DF40A and above (Midrange and High Performance engines) means no belt adjustment and no maintenance during the life of the engine. Timing chains are the devices that make the connection between the crankshaft and camshafts and are located below the powerhead on a Suzuki outboard. The self-tensioning, oil-bathed timing chains found exclusively in Suzuki's 4-stroke outboards reduce noise and improve durability for dependable and quiet operation.
